Professional Experience

Gigabit | Software Engineer(PHP/Laravel) - Backend
Jan, 2024 – Present

As a Software Engineer specializing in PHP/Laravel for Gigabit, I am entrusted with managing the complete project lifecycles. From inception to deployment, I oversee full-stack development in PHP Laravel and JavaScript(**Vuejs**) for multiple projects. My responsibilities encompass ensuring seamless execution and delivering high-quality solutions that meet client objectives effectively.

Projects:
- LongLeap.one ↗
- Tinhih

Delice Placement | Backend Developer(PHP/Laravel)
Jan, 2024 – Jan, 2024

Experienced PHP Laravel Fullstack Developer with a track record of success at Delice Placement. Proficient in front-end and back-end development, specializing in HTML, CSS, JavaScript, PHP, and Laravel framework. Collaborative team player committed to delivering high-quality solutions aligned with project goals.

Projects:
- Delice International Placement ↗

Bitspondon | Software Engineer - Intern
Aug, 2023 – Dec 2023

I specialize in managing full-stack PHP Laravel development projects from start to finish, ensuring clean, efficient, and maintainable code. With a focus on optimizing performance, I handle database design, maintenance, and integration with frontend interfaces. Additionally, I create and maintain APIs for seamless data exchange, while implementing robust security measures to protect sensitive information. Using Git for version control, I collaborate effectively with team members to deliver high-quality solutions.

Projects:
- Bitspondon.com ↗
- DarulFalah - Madrasha Website ↗
